Because of biometrics required to process a visa, it is imperative for applicants to be physically present at the Embassy . The visa will be issued upon compliance with the requirements. Once the application has been submitted and the biometrics taken, the visa will be issued within 10 working days; however, this figure is indicative, as visas are normally issued much earlier (usually within the same week of application). Appointments are not mandatory, but early application is highly recommended. If not present for collection, a courier company can collect your passport on your behalf.

Please note that travellers who wish to visit Mexico, regardless their nationality, who hold a valid, multiple entry visa for the United States of America, Canada, Japan, the United Kingdom or the Schengen Space countries do not need to apply for a tourist, business or transit Mexican visa. Additionally, permanent residents in the United States, Canada, Japan, the United Kingdom or the Schengen Space countries who wish to travel to Mexico do not require a visa to enter Mexico as tourist, transit or business visitors.
